

To: Whom it may concern:

Walter Burien has worked for 14-years to bring forward that taxation is not needed in the US or in fact Worldwide.

His website is: <http://CAFRI.com> .

A finance structure can be established in any country that utilizes investment return and contributions from government enterprise operations to replace the revenue source of taxation.

In doing so it creates a thriving economy indefinitely for the governments and population operating under this principle.

Taxation is and has always been extortion. It creates an environment in a reality scenario similar to giving a crack addict an unlimited supply of cocaine.

A review of local governments income (the take) over the last 25-years, say 1980 to 2005 in most cases shows a 2000% to 3000% increase in the local government's take while during the same time the populations income may have increased 100% to 140%. The disparity here is obvious and the end effect has been disastrous for all from the population.

Local and federal government collectively as of the year 2000 per gross income brings in more from investment return than all taxation collected.

1. Investment return is a revenue source.
2. Taxation is a revenue source.
3. Enterprise income is a revenue source.

Within any government structure #1 and #3 can be utilized to completely eliminate #2

The way this is done is through what is called TRF accounts (Tax Retirement Funds). Designed to do just that: Retire Taxation.

There is no greater importance than doing this. It positively effects every circumstance facing the world population.

For the last several thousand years, government administrations as they may be, have utilized their populations as a productivity resource to be drained and managed. This has never been a good thing nor will it ever be a good thing.

Under the TRF funding principle the most important aspect is that it changes the intent of government administrations from that of viewing the population as being a productivity resource to be drained and managed to that of wanting to see the population as wealthy and prosperous as possible.

The stronger the population's wealth base is, the more consistent and stronger the investment returns are funding government.

In all respects this creates a thriving economy, a steady and strong revenue generation for local governments, and a standard of excellence ever increasing for all within the population.

Taxation has burdened the population for to long of a time. It has created ever-growing systematic corruption in every government venue on earth. It is not needed and through application of the TRF principle it can be phased out and eliminated for all time to come.

What is required to make this happen is education of the mass population whereby the thinking and intent from one and all is to make this happen. All are now on the same page.

The roots of taxation out of primarily greed and oppertunity to tax run deep. In all respects the population has been utilized as an easy mark for subjugation and exploitation in this arena for centuries.

This is not just an issue. In all light with objective thinking applied it is "the" issue in which most of the world's problems stem from. It degrades the standard of living of all from the general population.

The poor, middle class and wealthy are significantly drained in all respects by taxation. The TRF principle of operation in funding government eliminates that drain while at the same time creating thriving and prosperous economies.

There is no greater gift that can be given at this time to the population of the Earth than the elimination of taxation and in resulting effect creating a stable and very prosperous economy for one and all forward from that point in time.

Again, education of the mass population is essential in making this happen. The principle of operation of TRF accounts is sound, proven, and urgently needed to offset the runaway train of taxation that is very evidently dragging down the world economies.

The runaway effect of ever increasing taxation in all light is leading to the social, economic, and moral collapse of the people's of Earth.

It is not needed and the train wreck of that runaway train needs to be averted before that train hits the concrete wall at the end of the tracks at 400 MPH.

That train wreck can be averted if the population and government administrations grasps the very positive end results that the TRF principle of management accomplishes for the population of the world in funding government operations without the need for any taxation.

Can this be done? Yes.

It is up to each and every one of us to make this happen. Again, taxation is very well rooted having led to massive corruption and excessive force and tactics used for its collection.

Is taxation smart money? No. It has evolved into racketeering of no equal on every level.

Is the TRF management principle smart money? Yes. In effect the TRF creates a prosperous population building their wealth in combination with a thriving economy for all time to come, without the need for any taxation.

Your organization, if you choose to do so can comprehensively educate its members as to the reality of this world changing proposition to end taxation for the benefit of every one of your membership and one and all worldwide.

BASIC FORMAT DRAFT - 11/02/08

TRFA Prospectus Audit template

1. We the People of [] for [] hereinafter the venue, wish and by exerting imposed rule; require that an independent audit and statistical review of our venue be conducted forthwith exclusively by the Tax Retirement Fund Association hereinafter the TRFA.

The purpose of the audit and statistical review conducted by the TRFA will be for the preparation by the TRFA of a prospectus for the implementation of the Tax Retirement Fund principle of operation for our venue that will outline recommendations for local government agency, enterprise operation, and investment fund consolidation with comprehensive operational guidelines having the intent for scheduled measures necessary for the total elimination of all taxation requirements collected for and from our venue.

Upon completion and then presentation of the audit, statistical review, and prospectus presentation by the TRFA to the people of this venue a ballot vote by "We the People" will be conducted through and by a "hand paper count" within [] days from the presentation of the prospectus by the TRFA to the people of this venue for the approval or declining of the prospectus presented by the TRFA.

If the prospectus presented is passed by majority vote of "We the People" then timely implementation of the operating principles and guidelines of the prospectus shall be enacted into working order by our venue's administration within 120 days of passage by majority vote of the people.

2. We the People require the full cooperation of the venue administration, State, and US Attorney Generals office to be made available to the TRFA in facilitating requirements for discovery, audit, statistical review, and prospectus preparation requirements if requested by the TRFA.

3. By authority and mandate of "We the People" exercising full application of law, hereby assert and require that any individual, group, or government body that it is shown intentionally or with intent covertly impedes, delays, or falsifies information given to the TRFA adversely affecting the timeliness of: Voting schedules; conducting of the audit; or preparation of the TRFA Audit Prospectus; subsequent vote by the people on the Prospectus; and then if passed by public vote, the implementation of the TRF program for application in this venue shall be a first degree felony by standing law as outlined here [STATE AND FEDERAL LAW (not statute) AS APPLIES] punishable by fines of [] and or prison sentencing of no more than [] years.

4. Approval by "We the People" of this venture in this venue will authorize and require payment of 1/4 of 1% of this venue's general purpose and enterprise operating budget funds to be paid the TRFA, and that payment will be made within twenty days of passage by public vote. This payment shall be dedicated to the TRFA, and paid timely to and at the direction of the TRFA to be use by the TRFA at its discretion for the assignment of the teams of auditors, actuaries, legal, office staff, and general operating funds necessary for the TRFA to get the comprehensive audit, statistical review, prospectus preparation, and delivery of the prospectus for further vote by the people completed in this venue.

Majority vote establishing the will and mandate of "We the People" of this venue is and shall be superlative to standing statute affecting this venue, and approval vote by "We the People" shall have the full force of law standing or necessary for enactment to fulfill the peoples will and mandate in this undertaking by the TRFA.

[END OF DRAFT TEMPLATE]

It is noted that the basic simplicity and nature of these aspects brought forward shall not be diluted or expanded upon in complexity that limits the true scope of application intended.

There are three types of people in this world:

1. Those that make things happen.
2. Those that watch things happen.
3. Those that say, "What happened."

The TRF is for all of the #1s out there..

Within the TRFA audit template, it authorizes and requires upon passage that the full cooperation of the local venue, and authority rendered with the State, and US Attorney Generals office will be made available to the TRFA in facilitating requirements for discovery, audit, statistical review, and prospectus preparation if requested by the TRFA.

Additionally within the TRFA Prospectus Audit template, it will make it a first-degree felony for any individual, group, or government body that if it is shown intentionally impedes, delays, or falsifies information given to the TRFA adversely affecting the timeliness of: Voting schedules; conducting of the audit; or preparation of the TRFA Audit Prospectus; subsequent vote by the people on the Prospectus; and then if passed by public vote; the implementation of the TRF program for application in this venue.

I think we all want the job done, and done well to accomplish the objectives as stated. The TRFA can do the job and do it well staying exclusively to the guidelines as stated in the TRFA Prospectus Audit. As more venues come on-line the actuary, auditing, and legal staff of the TRFA will grow proportionally to meet the need of the people in those venues.

From this point forward the tide has now changed. No more "business as usual" for the government syndicate. We have all seen what roads that have led us down. Let it be a new "We the People business as usual" whereby the people are true shareholders of our government. This is now in process through the application of the TRFA Prospectus Audits becoming a mandate for the benefit of our children, and us through the TRFA.

We own this country, it is not, nor should it be owned by a select group of individuals of whom it is apparent from recent events and a showing of their own unrestrained opportunistic nature, view the people as pawns for their amusement, abuse, and their own obscene financial gain by manipulation. This must change and change now by mandate vote by, for, and from "We the People".

Improvements and or minor modifications by the TRFA that could be applicable to specific venues may occur as the project moves forward. The object principles of the TRFA Prospectus Audit will always be kept to the point and specific as outlined in original form and in simple nature.

If you have effectively organized and are moving forward in your venue for the vote on the TRFA Prospectus Audit, upon confirmation and verification by the TRFA you will be added to the National Action Committee of the TRFA and receive as much assistance as possible from the TRFA teams to accomplish the objectives outline here for application in your venue.

I personally am not qualified to do the audits and draft the TRFA Prospectuses for each venue, but I am definitely qualified to oversee and create the teams of qualified auditors, actuaries, and legal teams necessary to get the job done.

Ready for the dawn of a new day that is by your choice and not theirs? D-Day is here! Let's make it happen one venue at a time until truly all are one, and one are for all as the most formidable investment power on the earth with "We the People" now as the true shareholders of the wealth maintained and generated by our own government under the TRF principle of operation.

Truly yours,

Walter J. Burien, Jr.

Very Important:**Local governments consolidating into one merged power hub**

by Walter Burien - CAFR1

01/18/12

I noticed this first per Massachusetts. The State consolidated control and ownership of all counties in the state by merger of all counties into the State. This happened over a decade ago in Massachusetts.

The "kicker" in addition to merger of the counties the "State" before this was done the "State" changed their government status from the "State" government of Massachusetts to the "Commonwealth" of Massachusetts. This transition was implemented by the "State" prior to 1995.

The big point here is that: "Private Associations" were used over the last 75-years to transition local governments from what we use to know government as into "Corporate" for profit enterprises and did so by direct consult over the years.

The structure of the "Commonwealth" of Massachusetts over the "State" government of Massachusetts, at the stroke of the pen overseen and checked off on by key player "Attorneys", implemented the transition from a "government" entity into what could be more closely considered a "Private Association".

The implications here are grave specifically as would apply to the transfer and masking of public wealth. The People own government, they do not own private associations. The same would apply to wealth transferred from "State" holdings transitioned into the "Private Association" holdings of the "Commonwealth" of Massachusetts..

Leave the liabilities under the "State" government shell and transfer the wealth holdings to and under the "Commonwealth" association.

This was done right under the noses of the Massachusetts residents and done without a clue given that it was being done to the Peoples of Massachusetts. The same is covertly taking place in NJ, PA, CT, and many other states.

The shell structure of government is being left in place as the wealth and stewardship responsibilities are transferred to the Private Association, or as in Massachusetts case when transitioned from the "State" government of Massachusetts into the "Commonwealth" of Massachusetts.

When this transition took place about two decades ago, Massachusetts no longer produced a "State" government CAFR (Comprehensive Annual Financial Report). The CAFR was now produced under the [Commonwealth of Massachusetts](#). The State Court System and Financial operations were also transitioned into and under the same "Commonwealth" structure.

Mitt Romney is the Presidential pick to be promoted by the syndicate being the prior governor of Massachusetts. He is versed on operating procedure to implement the same nationally. That will be his primary mission if elected President and thus the Syndicate is moving forward full steam utilizing all of their contacts and tactics to force Mitt Romney's win as President.

I note Barack Obama as an attorney and as current President is attempting to consolidate through restructuring federal government into the same transition.

This communication needs to go viral in all circles. Let all comprehend what is taking place right in their face and under their noses.

For government to be: "For the People by the People" this transition needs to be stopped cold in its tracks and reversed. It is well under way and if the roots of its structure hold it will no longer be: "For the People by the People" but For the Association by the Association" under the direction of the association's minions of attorneys direction.

As quoted from the front page of CAFR1.com as the bottom line at the end of the page:

"It appears that many attorneys have now taken over the House, Senate, and Governor's office. The separation of powers doctrine mandates attorneys being officers of the court (Judicial branch) that they should not be able to run for public office (Executive / Administrative branch)

Stop this now!

The ROOT of the corruption / graft / destruction of our country is coming from this breeding grounds. Here is why you are being bled dry! The very corrupt from the judicial branch have slithered their way into elected and appointed positions within the executive / administrative areas of government.

Again, it is the nature of this beast to bleed you dry, if they can that is..

If you from this point forward VOTE for an attorney running for office, you are more than foolish, you aid in the assured degradation and plunder of your own country.

Remove these attorneys from public office NOW! Mandate a ten year lapse from being an officer of the court BEFORE an attorney can run for public office and ten years after leaving office. This is a must to do NOW. It is NOT an option. Make this the LAW NOW in your City, County, and State. You now know why you are being bled dry. **It is the NATURE of this beast.**

THEY SAY THIS IS A COUNTRY OF LAWS, WELL, WHEN THE LAW ITSELF IS LAWLESS BY APPLICATION AND WHEN THE INTENT OF THE LAW IS FOR EXTORTION OF WEALTH OR REPRISAL OVER PROTECTION OF THE PEOPLE, THEN THE LETTER OF THE LAW ITSELF BECOMES MUTE AND THE APPLICATION THEREOF A CRIME IN ITSELF TO BE REPUDIATED.

WJB"

Any local government can be restructured to meet their annual budget needs "Without" taxes. TRF ([Tax Retirement Funds](#)) providing the revenue source to pay every City, County, State's general purpose annual budgetary needs!

CAFR Investments and Monopoly Action Exposed

State #1 5%
company stock

Government entities within the United States are restricted by law from owning more than 5% stock in any one company. However, thousands of individual government entities might collectively own majority stock in many companies.

State #2 5%
company stock

The collective majority control comes through those thousands of individual government entities turning their stock holders voting rights over to a private association that will represent them by proxy.

State #3 5%
company stock

Therefore, the private association represents by proxy the collective vote of each individual government entity with the result of the private association having control over the majority of the stock of any targeted company. This means that the private association has control over a company's corporate board of directors. The directors can be voted out and replaced by the collective proxy vote of the private association.

State #4 5%
company stock

City #1 5%
company stock

Also, the private association can direct millions and billions of investment fund dollars into the company or companies of choice from the investment funds that it receives from the thousands of government entities, pension fund entities and other investor fund entities. This is monopoly power to engage in special interest projects.

City #2 5%
company stock

City #3 5%
company stock

=

5% stock voting rights of
11 government entities is
equal to 55% controlling
stock vote when exercised
collectively through a
private association proxy
vote.

City #4 5%
company stock

City #5 5%
company stock

Corruption can come due to the private association having monopoly power without any monopoly restrictions. Any thinking concerned citizen might even see a possible connection here for the corruption in the military-industrial complex that President Dwight Eisenhower warned us about in his 1961 farewell address.

City #6 5%
company stock

Not only is there danger for corruption due to greed for profits but, consider the danger for corruption in the possibilities for social engineering through media bias. Might the special interests of those in the private association involve taking control over media bias through exercising their corporate stock monopoly power? There is no doubt of the possibility for their control over the board of directors of the major news media corporations as well as any other targeted corporations of choice.

City #7 5%
company stock
