

# *Independent American Party*

*Stand With The IAP For Our American Law and Order*

[www.voteiap.org](http://www.voteiap.org)

March 15, 2015

Fellow American,

**Who other than the enemies of liberty would try to paint pro-American patriots and organizations that support and defend the laws of the Constitution that secures our liberty with the label of being [enemy #1](#). What can be the motive to paint a color on America's patriots of liberty with a color other than the color of encouragement and respect, and the color of belief in liberty as championed in the Declaration of Independence and written in constitutional law? Only the enemies of liberty would try to paint the defenders of our Constitution that secures our rights with the label of [terrorist or threat](#) to national security? Also see [here](#) and [etc](#) and [etc](#) and [even here](#).**

The IAP stands up for America's patriots of liberty by painting the enemies of liberty with the truth of their motivation.

The motivation of liberty's enemies comes from their false belief. Consider the logic of people who do not believe there is a God who rewards men according to their actions. People motivated by [this logic](#) have no belief in God and not much respect for the men and women who do believe and who teach about the need for charity and repentance. They think Matthew 6:30-33 is foolishness. People motivated by [this logic](#) think they serve a good cause when they support population control and reduction as called for in the [Agenda 21](#) project. Agenda 21 invariably means that the United States Constitution that secures the rights of the people must be overthrown.

On the other hand, among some of those people who believe that life is only the evolution of an accident, rather than their motivation being from feelings of a good cause, perhaps their motivation for control comes from feelings of an inferiority complex or a greed for power. For those enemies of liberty who do understand that life is not just an accident, perhaps they knowingly choose to follow Satan.

Eternal vigilance is said to be the price of liberty. People who choose to defend liberty against the forces of tyranny need to understand that there is an evil motivation in certain people which directs them to plot and scheme against the United States Constitution and its laws that stand in defense of the unalienable rights of man.

Every American who cherishes liberty is encouraged to stand with the Independent American Party. Let's stand united in recognition that our nation and our liberty can only be secured by following the laws of the United States Constitution and by honoring the oath to [support and defend](#) the United States Constitution.

Let's remember the many who were willing to give their all for the cause of liberty. Let's remember and honor our nation's veterans and others who, by reason of their recognition that the principles of liberty enshrined in the Declaration of Independence are at the foundation of all our nation's laws, are willing to [stand in defense of the laws of the Constitution](#).

Through corrupt political action, powerful unelected bureaucracies have been created, such as exists in the IRS, that were never intended to have the power to circumvent our rights of free enterprise or the law of the Constitution. The result is that the American people, who were once enabled through the power of freedom and free enterprise to establish the greatest and most prosperous nation on earth, are on the path of decline. The control that the IRS has over the people and economy must be overcome if our American society is ever to have the chance to reestablish itself as the envy of the world. The best and surest way to accomplish this is through a new tax code.

The Independent American Party promotes the public understanding that is needed to overcome the corruption that destroys our peace and liberty. We support the election of candidates who stand for what so very many have already been willing to live **and die for**, which is the law of the Constitution that, when followed, secures our peace and liberty.

There are some politicians who serve corporate profits over American jobs. Whether it be Intentional or unintentional, these politicians have supported laws and policies that have served the interests of those who aim to destroy the jobs and wealth of the great American economic **middle class**. They serve the purpose of those who have a special interest in creating the poverty that will make people dependent on unsustainable Government spending.

The enemy of American independence and liberty promotes policy that creates poverty.

The enemy then gains the vote of the poor by promising to meet the needs of the poor.

As the enemy gains the vote, the people have decreasing protection against the rise of tyranny.

#### **The American Revolution against tyranny is not dead**

The IAP stands against tyranny as declared in the Declaration of Independence.

The IAP stands against tyranny as written in the laws of the United States Constitution.

The IAP stands against tyranny with free enterprise policy that promotes American Jobs.

Who is the enemy? They are **people** who support population control and reduction as in Agenda 21 which aims to transform the world and our free nation into a controlled society under their new world order brand of tyranny. They claim to favor democracy while being in tight financial control of much of our mass media networks enabling them to hide the truth and cover up their Agenda 21 goals and their manipulation of poverty.

There are **more reports than one** that refer to the time in 1959 when Soviet Premier Nikita Khrushchev **made these revealing comments** to Secretary of Agriculture Benson: Within those comments he is reported to have made this statement, "Your grandchildren will live under communism. You Americans are so gullible. No, you won't accept communism outright. But, we will keep feeding you small doses of socialism until you finally wake up and find you already have communism. We won't have to fight you. We will so weaken your economy until you fall like overripe fruit into our hands."

By knowing and caring for what is true, the American people can withstand the enemy that seeks the destruction of our American laws of liberty. The enemy has been at work setting the stage for more crime and disease through means such as **economic policy** and open borders. Such intentionally bad policy creates **poverty** and enables the spread of crime and disease which sets the stage for the manipulation of poverty .

The bottom line of the truth referred to here is that the enemy of our American law and order continually and strategically seek to create poverty and a disregard for the need within our American society to be ruled by our Constitutional laws of liberty.

When the American people vote for politicians who plot against American independence in favor of world law under the control of a United Nations "new world order", we can blame no one but ourselves when they hold open our nation's gates for invasion from persons who may have disease and be violent criminals. This gives our enemies the excuse they look for to further **disregard** the Constitutional rights of the American people in order to make us safer. They do it with the intentions of overthrowing the people's rule of law under the Constitution that unites us, even our law that has traditionally united us as **"one nation under God, indivisible, with Liberty and Justice for all"** .

Contrary to those who plot against our nation for the creation of a weakened economy and the conditions of poverty that come with it, the Independent American Party is a party of and for Americans who promote and support government policy that teaches the people how to live and prosper independent of the force of government control.

For example, the Kansas IAP promotes policies and candidates in support of state and federal tax reform such as the [Fair Tax Act](#) that will abolish the power of the IRS to collect income taxes and engage in acts of **social engineering** as **recently accused** of. The [Fair Tax Act](#) is legislation that is now in Congress. The Fair Tax accomplishes the needed federal tax reform and serves to bring greater investments into American industry resulting in a great many new free enterprise job creations.

A tax reform such as the Fair Tax Act is the right way to restore America's prosperous economy. Because of the [present conditions of poverty](#) with so many Americans in need of welfare assistance, the Fair Tax initial sales tax rate will be high. However, for the things we purchase, our total spending may actually be reduced due to the elimination of embedded taxes. An embedded tax is the increase in the cost of an item due to the expense in taxes that the producer of the item must pay. The expense of taxes is always passed on to the consumer. Only consumers pay taxes. Until the embedded taxes are eliminated, the initial high rate sale tax must be temporarily endured if we will have the heart of charity to maintain enough public assistance needed to ease the hardships of the unnecessary poverty created by the enemy.

To answer the demands of both the laws of the Constitution and of an unsustainable national economy, all federal welfare programs must be strategically reduced. There must be an immediate freeze on benefits. Once the restoration of our free enterprise has been enabled by the Fair Tax with growing demands for labor and jobs for every skill level, all federal welfare programs can be phased out. When the economy revives along with the job market and more people are able to provide for their needs, the initial high tax rate can begin to be reduced and possibly even be [reduced to zero](#). This is the best way and the right way to return America to its destiny of free enterprise and to its greatness in power and liberty under the laws of the United States Constitution.

**Stand with the IAP** in the great American cause of liberty. Stand with the IAP against the plot to overthrow America through manipulating conditions of poverty and creating a new world order **control grid of tyranny**.

The IAP opposes oppressive taxes and foreign trade agreements such as NAFTA that cause the loss of our American industry and jobs. When corporations in our USA consider their business of making profits (which they always do), they are forced to consider the greater profits to be made by using the factory facilities of foreign nations which enable them to reduce the expense of labor, the expense of our tax laws, and the expense of our domestic **pollution control laws**.

The IAP supports tax reform, such as the [Fair Tax Act](#) provides, to help recover our lost USA factories and jobs. The Fair Tax abolishes the current tax code with its IRS authority to impose a direct and convoluted tax scheme on the American people and industry. The Fair Tax will turn loose our American free enterprise for a boom of investments into USA business ventures while at the same time it will help to pay for the needs and recovery of a dependent society that became dependent largely due to the loss of our job creating industry.

For the preservation of states rights and for an independent America with freedom from tyranny, it is time to elect candidates who follow the spirit of the Declaration of Independence and the rule of law of the United States Constitution. Join with the IAP for an independent America made secure by honoring the laws of the United States Constitution.

Stand up for America by telling everyone about the IAP stand against the enemies of liberty. For an aid in doing this, simply copy and distribute the [IAP Invitation 2](#) flyer. In standing up for America and exposing the motivation that is behind the enemies of liberty, the American people will preserve their liberty expressed in the Declaration of Independence.

Independent Americans stand for liberty, law and order under the rule of the law of the United States Constitution. We stand for the cause of America as understood and intended by those whose sacrifices have secured the light of liberty for us to this day ever since that bright beginning of the American revolution around those years of the [Declaration of Independence](#) of 1776.

The IAP in Kansas is at work in the Campaign For America. The aim of the campaign is for the public education of the issues and for promoting the election of the candidates who follow the standards of Constitutional law and order.

Once every week, we discuss the issues and the candidates. Freedom loving Americans of all states are invited.

This meeting is accessible by phone and is scheduled for most every Tuesday as follows:

**9:00 PM – 10:00 PM Central Time, (CST / CDT)**

**Phone: 724-444-7444**

**Access Code: 125187#**

The schedule for this meeting is posted on the [TalkShoe](#) network web site at <http://www.talkshoe.com>. Enter call ID 125187 to view the meeting progress and schedules.

Visit our IAP Campaign For America web site at [www.voteiap.org](http://www.voteiap.org).

Join with the IAP in the cause of our liberty and our American independence.
