

For American Law and Order (www.voteiap.org)

If you could choose our United States National Motto, what would the Motto be?

In the history of our National Motto, we find these words, ***“No nation can be strong except in the strength of God, or safe except in His defense. The trust of our people in God should be declared on our national coins.”***

The Independent American Party stands in support of keeping our National Motto, “In God we Trust”, and for continuing to display this motto to the American people on our coins.

It is only through living with trust in God that the blessings of liberty are sustainable. When a nation has its beginning in liberty and turns away from trust in God, the specter of a population with wants that are unsustainable soon becomes the motivation for the tyranny of population control.

The motivation of liberty's enemies comes from their false belief. Consider the logic of people who do not believe there is a God who rewards men according to their actions. People motivated by **this logic** think they serve a good cause when they support population control and reduction as called for in the **Agenda 21** project. Agenda 21 invariably means that the United States Constitution that secures the rights of the people must be overthrown.

We ask every American to recognize the corruption and to join with the Independent American Party. Join the IAP and the petition process to get the IAP and our candidates on all election ballots.

Support The United States Constitution

Go to www.voteiap.org and see some of the many reasons for why people should support the laws of the United States Constitution.

The Independent American Party supports the laws of the Constitution and supports abolishing the power of the IRS to engage in social engineering. Through the power of direct taxation, the IRS conducts acts of social engineering in favor of those having special interest designs.

The Fair Tax Act is legislation that is now in Congress that abolishes the authority and unlawful power of the IRS. Without the IRS oppression over free enterprise, we will see greater investments into American industry which will mean many new job creations.

The Independent American Party (IAP) stands for a free and strong America. The IAP supports the Fair Tax to save our American industry and jobs and to turn public dependency back into being independent Americans. See www.voteiap.org .

The enemy of American independence and liberty promotes policy that creates poverty.
The enemy then gains the vote of the poor by promising to meet the needs of the poor.
As the enemy gains the vote, the people have decreasing protection against the rise of tyranny.

The American Revolution against tyranny is not dead

The IAP stands against tyranny as declared in the Declaration of Independence.
The IAP stands against tyranny as written in the laws of the United States Constitution.
The IAP stands against tyranny with free enterprise policy that promotes American jobs.
